

My Erasmus experience

Feb 2016 – May 2016

You've been offered Erasmus!

- This is the start of an amazing adventure.
- Start planning early. Contact the university you're going to and try to get into the class Facebook page – it's a lifesaver!
- Look up the local tourist office, find out the nice areas to live so that mammy knows you're going to be safe.
- Make sure your phone is unlocked.

The night before...

- Pack lightly – you'll want the space to bring home memories.

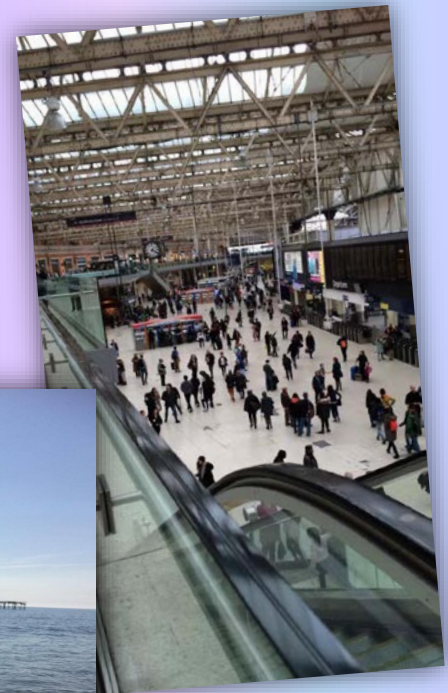

You've arrived

- Don't be afraid to talk to people – everyone loves the Irish!
- Go exploring – stay in your home town for the first few days 😊
- Buy a local sim card

The weekends

- Make the most of this experience and explore the local areas. #Roadtrip

- Don't be afraid to get lost

Involve yourself with the university

- Depending on where you live, it can be tough to make friends outside of your ward – societies are great for meeting new people.

Be a real tourist ...

- The likelihood is you won't be anywhere this long again so make the most of your time and do all the touristy things...

Do things you wouldn't do at home

Enjoy!

- It's not always easy but Skype is always there and you won't regret it!
- Home isn't that far away 😊
