UCD PPI Ignite – Embedding Public and Patient Involvement (PPI) in Health and Social Care Research

The UCD PPI Ignite Connect team are actively embedding PPI in health and social care related research, education and training, professional practice and administration across UCD's structures.

We are working with people who are seldom heard to develop research, education and support at UCD to include them from the start. We will learn together to make PPI in health and social care research and education meaningful and effective.

RESEARCH

To capture best PPI research practice and transfer them into practice to enable immersion

CAPACITY & CAPABILITY

To support and develop ongoing training and education that builds PPI Capacity both within UCD and externally with our partners

KNOWLEDGE MOBILISATION AND NETWORK FORMATION

To establish/provide networks, structures and processes to facilitate meaningful and reciprocal knowledge exchange
